

**Initiation of watershed planning—Scope of planning—Technical assistance from state agencies. (Effective until June 30, 2019.)**

(1) Planning conducted under this chapter must provide for a process to allow the local citizens within a WRIA or multi-WRIA area to join together in an effort to: (a) Assess the status of the water resources of their WRIA or multi-WRIA area; and (b) determine how best to manage the water resources of the WRIA or multi-WRIA area to balance the competing resource demands for that area within the parameters under RCW **90.82.120**.

(2)(a) Watershed planning under this chapter may be initiated for a WRIA only with the concurrence of: (i) All counties within the WRIA; (ii) the largest city or town within the WRIA unless the WRIA does not contain a city or town; and (iii) the water supply utility obtaining the largest quantity of water from the WRIA or, for a WRIA with lands within the Columbia Basin project, the water supply utility obtaining from the Columbia Basin project the largest quantity of water for the WRIA. To apply for a grant for organizing the planning unit as provided for under RCW **90.82.040**(2)(a), these entities shall designate the entity that will serve as the lead agency for the planning effort and indicate how the planning unit will be staffed.

(b) For purposes of this chapter, WRIA 40 shall be divided such that the portion of the WRIA located entirely within the Stemilt and Squilchuck subbasins shall be considered WRIA 40a and the remaining portion shall be considered WRIA 40b. Planning may be conducted separately for WRIA 40a and 40b. WRIA 40a shall be eligible for one-fourth of the funding available for a single WRIA, and WRIA 40b shall be eligible for three-fourths of the funding available for a single WRIA.

(c) For purposes of this chapter, WRIA 29 shall be divided such that the portion of the WRIA located entirely within the White Salmon subbasin and the subbasins east thereof shall be considered WRIA 29b and the remaining portion shall be considered WRIA 29a. Planning may be conducted separately for WRIA 29a and 29b. WRIA 29a shall be eligible for one-half of the funding available for a single WRIA and WRIA 29b shall be eligible for one-half of the funding available for a single WRIA.

(d) For purposes of this chapter, WRIA 14 shall be divided such that the portion of the WRIA where surface waters drain into Hood Canal shall be considered WRIA 14b, and the remaining portion shall be considered WRIA 14a. Planning for WRIA 14b under this chapter shall be conducted by the WRIA 16 planning unit. WRIA 14b shall be eligible for one-half of the funding available for a single WRIA, and WRIA 14a shall be eligible for one-half of the funding available for a single WRIA.

(3) Watershed planning under this chapter may be initiated for a multi-WRIA area only with the concurrence of: (a) All counties within the multi-WRIA area; (b) the largest city or town in each WRIA unless the WRIA does not contain a city or town; and (c) the water supply utility obtaining the largest quantity of water in each WRIA.

(4) If entities in subsection (2) or (3) of this section decide jointly and unanimously to proceed, they shall invite all tribes with reservation lands within the management area.

(5) The entities in subsection (2) or (3) of this section, including the tribes if they affirmatively accept the invitation, constitute the initiating governments for the purposes of this section.

(6) The organizing grant shall be used to organize the planning unit and to determine the scope of the planning to be conducted. In determining the scope of the planning activities, consideration shall be given to all existing plans and related planning activities. The scope of planning must include water quantity elements as provided in RCW **90.82.070**, and may include water quality elements as contained in RCW **90.82.090**, habitat elements as contained in RCW **90.82.100**, and instream flow elements as contained in RCW **90.82.080**. The initiating governments shall work with

state government, other local governments within the management area, and affected tribal governments, in developing a planning process. The initiating governments may hold public meetings as deemed necessary to develop a proposed scope of work and a proposed composition of the planning unit. In developing a proposed composition of the planning unit, the initiating governments shall provide for representation of a wide range of water resource interests.

(7) Each state agency with regulatory or other interests in the WRIA or multi-WRIA area to be planned shall assist the local citizens in the planning effort to the greatest extent practicable, recognizing any fiscal limitations. In providing such technical assistance and to facilitate representation on the planning unit, state agencies may organize and agree upon their representation on the planning unit. Such technical assistance must only be at the request of and to the extent desired by the planning unit conducting such planning. The number of state agency representatives on the planning unit shall be determined by the initiating governments in consultation with the governor's office.

(8) As used in this section, "lead agency" means the entity that coordinates staff support of its own or of other local governments and receives grants for developing a watershed plan.

(9) A planning unit is dissolved when the department approves a water management board, as authorized in RCW **90.92.030**, and all assets, funds, files, planning documents, pending plans and grant applications, and other current activities of the planning unit are transferred to the approved water management board. The approved water management board must assume the duties, responsibilities, and activities of the planning unit and the initiating governments, as required in this chapter.

## NOTES:

**Expiration date—2009 c 183:** See note following RCW **90.92.010**.

## RCW 90.82.060

### **Initiation of watershed planning—Scope of planning—Technical assistance from state agencies. (Effective June 30, 2019.)**

(1) Planning conducted under this chapter must provide for a process to allow the local citizens within a WRIA or multi-WRIA area to join together in an effort to: (a) Assess the status of the water resources of their WRIA or multi-WRIA area; and (b) determine how best to manage the water resources of the WRIA or multi-WRIA area to balance the competing resource demands for that area within the parameters under RCW **90.82.120**.

(2)(a) Watershed planning under this chapter may be initiated for a WRIA only with the concurrence of: (i) All counties within the WRIA; (ii) the largest city or town within the WRIA unless the WRIA does not contain a city or town; and (iii) the water supply utility obtaining the largest quantity of water from the WRIA or, for a WRIA with lands within the Columbia Basin project, the water supply utility obtaining from the Columbia Basin project the largest quantity of water for the WRIA. To apply for a grant for organizing the planning unit as provided for under RCW **90.82.040**(2)(a), these entities shall designate the entity that will serve as the lead agency for the planning effort and indicate how the planning unit will be staffed.

(b) For purposes of this chapter, WRIA 40 shall be divided such that the portion of the WRIA located entirely within the Stemilt and Squilchuck subbasins shall be considered WRIA 40a and the

remaining portion shall be considered WRIA 40b. Planning may be conducted separately for WRIA 40a and 40b. WRIA 40a shall be eligible for one-fourth of the funding available for a single WRIA, and WRIA 40b shall be eligible for three-fourths of the funding available for a single WRIA.

(c) For purposes of this chapter, WRIA 29 shall be divided such that the portion of the WRIA located entirely within the White Salmon subbasin and the subbasins east thereof shall be considered WRIA 29b and the remaining portion shall be considered WRIA 29a. Planning may be conducted separately for WRIA 29a and 29b. WRIA 29a shall be eligible for one-half of the funding available for a single WRIA and WRIA 29b shall be eligible for one-half of the funding available for a single WRIA.

(d) For purposes of this chapter, WRIA 14 shall be divided such that the portion of the WRIA where surface waters drain into Hood Canal shall be considered WRIA 14b, and the remaining portion shall be considered WRIA 14a. Planning for WRIA 14b under this chapter shall be conducted by the WRIA 16 planning unit. WRIA 14b shall be eligible for one-half of the funding available for a single WRIA, and WRIA 14a shall be eligible for one-half of the funding available for a single WRIA.

(3) Watershed planning under this chapter may be initiated for a multi-WRIA area only with the concurrence of: (a) All counties within the multi-WRIA area; (b) the largest city or town in each WRIA unless the WRIA does not contain a city or town; and (c) the water supply utility obtaining the largest quantity of water in each WRIA.

(4) If entities in subsection (2) or (3) of this section decide jointly and unanimously to proceed, they shall invite all tribes with reservation lands within the management area.

(5) The entities in subsection (2) or (3) of this section, including the tribes if they affirmatively accept the invitation, constitute the initiating governments for the purposes of this section.

(6) The organizing grant shall be used to organize the planning unit and to determine the scope of the planning to be conducted. In determining the scope of the planning activities, consideration shall be given to all existing plans and related planning activities. The scope of planning must include water quantity elements as provided in RCW **90.82.070**, and may include water quality elements as contained in RCW **90.82.090**, habitat elements as contained in RCW **90.82.100**, and instream flow elements as contained in RCW **90.82.080**. The initiating governments shall work with state government, other local governments within the management area, and affected tribal governments, in developing a planning process. The initiating governments may hold public meetings as deemed necessary to develop a proposed scope of work and a proposed composition of the planning unit. In developing a proposed composition of the planning unit, the initiating governments shall provide for representation of a wide range of water resource interests.

(7) Each state agency with regulatory or other interests in the WRIA or multi-WRIA area to be planned shall assist the local citizens in the planning effort to the greatest extent practicable, recognizing any fiscal limitations. In providing such technical assistance and to facilitate representation on the planning unit, state agencies may organize and agree upon their representation on the planning unit. Such technical assistance must only be at the request of and to the extent desired by the planning unit conducting such planning. The number of state agency representatives on the planning unit shall be determined by the initiating governments in consultation with the governor's office.

(8) As used in this section, "lead agency" means the entity that coordinates staff support of its own or of other local governments and receives grants for developing a watershed plan.
